## Bedroom Nook Remodel

@FlyingJsRanch

# PROJECT PLAN

**Skill Level:** Beginner

# Materials

| Item                           | Qty       |
|--------------------------------|-----------|
| 2" Screws                      | 4 / shelf |
| 1" x 2" Primed MDF (8' Board)* | 1         |
| 2" x 8" Pine Board (8' Board)* | 1         |

\* Board Dimensions are "nominal". Actual dimensions are smaller due to lumber industry standards. Cuts are actual length.

A select/premium board or plywood comes with a smoother surface finish. It is clear or has very few tight knots, and it will have straight and sharp edges. This grade of wood pairs well with other boards or panels better and requires less time to sand and finish.

# Lumber Cut List

| Board*        | Description | Cut to | Qty |
|---------------|-------------|--------|-----|
| Shelf support | Primed MDF  | 6 ½"   | 6   |
| Shelves       | Pine board  | 20"    | 3   |

# Tools Used

Circular Saw

Drill/Driver

Level

Pencil

Safety Glasses

Tape Measure

Battery Tip: A 4.0 Ah battery is recommended to be paired with high amp draw tools for maximum efficiency.

# Assembly Instructions

---

## Step 1

Let's do cuts first! The space I'm putting my shelves is 20 1/8" wide, so I will be cutting my pine boards to 20". Take 1/8" off your wall-to-wall measurement.

---

## Step 2

Cut your primed MDF to 6 1/2". You will need 6 of these cuts.

---

## Step 3

For my space, I'm doing 3 shelves. Let's put up the supports first. The first set of supports we will put 24" up from your floor. Use your level to be sure these supports will give you straight shelves. Use your 2" screws to put the supports in. Put screws 1" from each edge of your MDF pieces. Put one on each side wall, leaving you back wall blank.

---

## Step 4

Repeat step 3, but this time 18" up from the previous supports we just installed. I wanted 3 shelves so I did another set of supports 18" higher again. So, 6 supports total, 3 on each wall.

---

## Step 5

If you'd like to stain your pine boards, do so now. Let dry.

---

## Step 6

Now you can slide your pine boards in and onto your supports. Now you've got some lovely shelves! Decorate and add baskets for organization space.
