Engraving Bit from Rotary Tool Accessory Pack	1
Sandpaper: 220g	
Black Acrylic Paint	
Spray Sealer	

Tools Used

Hickory Hammer

Rotary Tool

Carpenters Pencil

Safety Glasses

Engraving Bit

Assembly Instructions

Step 1

Make a copy of chosen handwriting to use as stencil. Trace wording onto hammer using carbon paper or you can color the back of your stencil with a pencil if you don't have carbon paper

Step 2

Using a slow speed, use your rotary tool and bit to engrave the letters into the hammer.

Step 3

Use a small piece of sandpaper to make the letters smooth.

Step 4

Fill in lettering with paint.

Step 5

Once dry sand off the excess paint and use a brush to get all the dust out of the letters.

Step 6

Seal with a spray shellac or sealer of your choice.
