

HART™

Pallet Pumpkins

by @thecarsonhome

PROJECT PLAN

Finished Dimensions: Varies based on Desired Size

Skill Level: Beginner

Materials

Item	Qty
Pallet	1
Paint (white and green)	2
Stain	1
Coat Hanger	1
Foam Paint Brushes	3
Black Marker	1

* Board Dimensions are "nominal". Actual dimensions are smaller due to lumber industry standards. Cuts are actual length.

Tools Used

Angle Grider

Jigsaw

Pliers

Battery Tip: A 4.0 Ah battery is recommended to be paired with high amp draw tools for maximum efficiency.

Assembly Instructions

Step 1

Using a black marker, sketch out two pumpkins and two leaves on pallet. Use the bottom of the pallet for the bottom of the pumpkins so they will stand by themselves.

Step 2

Using your jigsaw, cut along the black line for both pumpkins and leaves. Cut through any of the back of the pallet to separate your pumpkins and leaves.

Step 3

Paint the pumpkins and leaves the desired colors.

Step 4

Using your angle grinder, distress and add detail to your pumpkins.

Step 5

Dry brush stain on pumpkins to accent the distressing.

Step 6

Use your pliers to bend and twist your coat hanger into spirals, and place around pumpkin stem holding the leaf.

Step 7

Display your finished pumpkins!

TIP: To keep the wind from blowing your pumpkins over, place a brick behind each pumpkin resting on the pallet edge.
