Hot Glue Gun

Also Needed: Wire Cutters

Battery Tip: A 4.0 Ah battery is recommended to be paired with high amp draw tools for maximum efficiency.

Assembly Instructions

Step 1

Cut 1"x1" lumber into 10 - 12" pieces.

Step 2

Cut one end at 18° and the other end at 36°.

Step 3

Assemble star using wood glue and stapler. Fill gaps with wood filler and sand.

Step 4

Staple chicken wire to back side of star.

Step 5

For inner star - draw or use star pattern on board. Using jigsaw, cut star out.

Step 6

Paint stars (I painted large star navy and dry brushed white on inner star.)

Step 7

Staple inner star and chicken wire together.

Step 8

Embellish (I covered 2 tags with ribbon, then wound brown and red twine around star. Finished with twine bow and red, wood star.)
