Back to School - DIY Pegboard Desk Organizer
by @knapptime_Crafts

PROJECT PLAN

Materials

Item	Qty
Item	Quantity
Dowels 5/8" - 4' long	1
Wood Glue	1
Small Organizers	1 pack
Plywood	1 sheet
Sand Paper 180g, 220g	1 pack
Nails (one that works with your nail gun)	1 pack
Spray Paint	1 can
Top Coat Polycrylic	1 can

* Board dimensions are "nominal." Actual dimensions are smaller due to lumber industry standards. Cuts are actual length.

Tools Used

| Miter Saw | Drill | Circular Saw | Spade Bit |

Also Needed: Square, Nailer

 Battery Tip: A 4.0 Ah battery is recommended to be paired with high amp draw tools for maximum efficiency.

* Board dimensions are "nominal." Actual dimensions are smaller due to lumber industry standards. Cuts are actual length.

Lumber Cut List

Board*	Description	Cut to	Qty
Dowels	5/8" - 4' long	2.5" Long	25
Plywood	1 Sheet	16' X 20"	1

* Board dimensions are "nominal." Actual dimensions are smaller due to lumber industry standards. Cuts are actual length.

Assembly Instructions

Step 1

Measure and cut the plywood to size.

Step 2

Cut 25 dowels to 2.5" each. (Cut everything from the cut list.)

Step 3

Center your holes 2" in on every side. Then paced 2.5" on center. This will give you about 5 X 5 holes (25 total). (Optional: You can also purchase an MDF pegboard sheet to help create holes quicker.) Cut using the 5/8" spade bit!

Step 4

Sand everything until you have the desired smoothness.

Step 5

Center the wood organizers to the peg holes. Mark the location.

Step 6

Apply the wood glue, then nail dowel to the organizers.

Step 7

Once dry, dust away from all pieces.

Step 8

Now we paint! Apply 3 thin layers of paint and allow it to dry.

Tip: Place pegs on board while painting. Allow them to dry, and then you will get the cute color blocking tip.

Step 9

Now add desk supplies! That's it – simple DIY desk organizer! Perfect for the whole year, not just for school!
