PROJECT PLAN

Skill Level: Beginner

Materials

Item	Qty
Screws (various sizes)	36
Pegs (used for legs)	6
Wood (various sizes)	
Stain	3 different shades

Tools Used

Jig Saw

Drill

Also Needed: Brush for stain.

 **Battery Tip:** A 4.0 Ah battery is recommended to be paired with high amp draw tools for maximum efficiency.

Assembly Instructions

Step 1

Cut wood to desired size for top and bottom pieces.

Step 2

Stain wood to desired shade. We chose 3 different ones and natural. Let dry.

Step 3

Place thin pieces of wood across middle of top and bottom piece. Screw together.

Step 4

Screw top and bottom pieces together at 90 degree angle. See photo for reference.

Step 5

Attach pegs to bottom side of bottom piece to act as legs. See photo for reference.
