

HART™

Tabletop Fire Pit

@ForzofNature

PROJECT PLAN

Skill Level: Beginner

Materials

| Item | Qty |
|--------------------------|-----|
| 1x4x8 board* | 1 |
| 1.5" screws | |
| Small campfire canisters | 3 |
| Wood glue | |
| Wood filler | |

* Board Dimensions are "nominal". Actual dimensions are smaller due to lumber industry standards. Cuts are actual length.

A select/premium board or plywood comes with a smoother surface finish. It is clear or has very few tight knots, and it will have straight and sharp edges. This grade of wood pairs well with other boards or panels better and requires less time to sand and finish.

Tools Used

Miter Saw

Brushless Drill

Orbital Sander

Pencil

Safety Glasses

Tape Measure

Battery Tip: A 4.0 Ah battery is recommended to be paired with high amp draw tools for maximum efficiency.

Assembly Instructions

Step 1

Cut 1x4x8 board into three 12" pieces and two 3.5" pieces.

Step 2

Miter two 12" pieces and two 3.5" at 45° so their sides are no longer parallel.

Step 3

Align to form a box with the non-mitered 12" piece on bottom. Secure with wood glue & clamps.

Step 4

After glue has dried, pre-drill 4 holes in each side and on bottom where pieces touch.

Step 5

Using the drill/driver, screw pieces together to further reinforce the box.

Step 6

Fill screw holes with wood filler, sand with orbital sander, then paint as desired.

Step 7

Add cannisters and pebbles after drying, then enjoy!
