# Tools Used

Miter Saw

Drill

Orbit Sander

Tape Measure

Level

Hammer

Safety Glasses

## Also Needed: Clamps

Battery Tip: A 4.0 Ah battery is recommended to be paired with high amp draw tools for maximum efficiency.

# Assembly Instructions

---

## Step 1

Cut shelves 21.5" long.

---

## Step 2

Pre-drill 3 holes 17" up on left side panel.

---

## Step 3

Using 1 ¾" screws, screw shelf piece to panel. Repeat going 4" up on the right panel.

---

## Step 4

Adhere top decorative piece to panel using wood glue. Then screw ¼" pine pieces to top decorative piece and main panel using ½" screws.

---

## Step 5

Fill any gaps with wood filler, and sand any rough areas.

---

## Step 6

Paint entire piece with white chalk paint, then dry brush gray chalk paint over top.

---

## Step 7

Add sawtooth hangers to back, and attach push pin hangers to the front. Enjoy your new shelves!
